08/2021

PROFESSIONAL SUMMARY

I am a front-end developer skilled in popular technologies such as React, TailwindCSS, and Javascript. I have a strong passion for web development and possess the skills to transfer any design to the web.

SKILLS

React

TailwindCSS

Javascript

Git

HTML/CSS

Firebase

PROFESSIONAL EXPERIENCE

Crypto Tracker

10/2022 - 12/2022

Cryptocurrency tracking CRUD app . Users are able to search through pages of cryptocurrencies with the data provided by the Coingecko API. If a user wants to track their portfolio, transactions can be added to help users better visualize how their portfolio is performing.

Product Landing Page

11/2022 - 12/2022

A product landing page for an enthusiast keyboard that was available for pre-order. The most design focused project out of the lot. Multiple animations and transitions were applied throughout the page.

Best Buy Clone

11/2022 - 12/2022

Clone of Best Buy's Website using their API. The user is able to browse products from many departments and add or remove them when needed. Product data is displayed via the Best Buy API and users can checkout their items when finished shopping.
